

# CONSTRUCTION BUILDING (WOOD OCCUPATION SITE)

## Level 2, Apprenticeship Framework

### ELIGIBILITY/ENTRY REQUIREMENTS

- 5 GCSE grades 3-9 in maths and English or equivalent.

Construction is a multi-billion pound industry that deals with developing the underlying structure of anything from maintenance and development of domestic properties to large commercial developments.

Almost two million people are employed in the UK Construction industry with a diverse range of skills. Apprenticeships are well recognised and valued as an entry route into the industry. Apprentices with the determination and willingness to work hard will find plenty of scope to move up the career ladder. Site Joiners usually work on a variety of construction sites installing and fitting wood products which includes the first and second fix of flooring, roofing, frames, partitions and stairs. They will learn about site safety and the use of hand and power tools. Apprentices will receive training at college one day a week, learning practical skills in our workshops and developing underpinning knowledge. We also support all our apprentices to achieve maths and English where required. The rest of the week is spent in the workplace gaining invaluable experience on the job.

### APPRENTICESHIP REQUIREMENTS

NVQ Diploma Level 2 and Diploma Level 2 in Wood Occupations - Site Carpentry as well as awareness of employment rights and responsibilities.

## TYPICAL JOB ROLES IN THIS AREA INCLUDE:

Site Joiner, Carpenter, Joiner.

## PROGRESSION ROUTE:

Successful apprentices may progress onto the Advanced Apprenticeship Level 3 with the support of their employer.
